

We are not expecting bad weather during our Championships, however we have put in place a network of contacts covering the county (North/East/South & West) who will report any bad weather which may impact peoples travelling plans.

If there are any problems, the Meet Promoter/Meet Director & Swimming Manager will make a decision on what if anything to do.

Any decision will be broadcast on the Herts ASA website, Herts ASA twitter feed and Herts ASA facebook page – we would ask clubs to rebroadcast any messages to get the word out as wide as possible.
